Department of Civil, Construction and Environmental Engineering
Admission Application for CONSTRUCTION MANAGEMENT Degree Program

Eligibility for Admission:

1. Completed all the technical courses from the list of courses indicated on the front with at least a GPA of 2.75 and a grade of “C-” or better in each course (see item 5 below). No grades below a “C-“ are acceptable toward the degree.

2. Completed a minimum of 26 hours of acceptable credit hours towards a BS Construction Management degree, with at least a cumulative GPA of 2.20 (degree GPA) in all courses presented (transfer and UNM courses).

3. Completed English 110 or 112 or 113 (or equivalent) with a grade of “C” or better.

4. Computation of Admission GPA and Cumulative GPA: Grades for all courses (or equivalents if transfer credit) will be used, including repeats, except where a grade replacement request has been submitted to and processed by the UNM Records Office.

5. UNM Core Curriculum Requirements apply to all students admitted into UNM. You must earn a grade of “C” or better (not “C-“) in any course that you intend to count toward fulfilling the UNM Core Curriculum. The SOE degree program curriculum indicates which courses fulfill the UNM Core Curriculum. English 110, Math 180, Chemistry 121 and 123L, and Physics 151, and EPS 101, listed on the reverse on the technical course list, are part of the UNM Core Curriculum.

6. Complete the grid based upon your transcript. Report all courses taken including repeats. The department will review and compute transfer work taken at universities which operate under the quarter system.

7. Return this application, your UNM unofficial transcript, and your degree audit evaluation to the Coordinator of Program Advisement, Cent 3012, in the Civil, Construction and Environmental Engineering Department.

8. Applications must go through three different individuals for review and signatures, so it may take 3-5 weeks for your application to be completely processed.

All applications are subject to departmental review and approval. (rev 7/18)
