

A GREAT OPPORTUNITY FOR UNM UNDERGRADUATES!

PLAYING WITH WATER

WATER DAY AT UNM

Wednesday, November 30th
from 12 noon to 2 pm

Robert Stamm Commons Room, #144
Centennial Engineering Center

This event exposes students to hands-on activities related to research conducted by UNM's Center for Water and the Environment (CWE) located in the School of Engineering's Department of Civil Engineering. The Center conducts cutting-edge research into technological and engineering-based solutions to problems with water and the environment experienced by the State of New Mexico and the southwestern United States.

This event is led by Dr. Vanessa Valentin, Civil Engineering Department and CWE, Blade Montgomery Allen, CWE Outreach Coordinator, and CWE graduate students. See cwe.unm.edu
